

PREVENTIVE MEASURES COVID-19

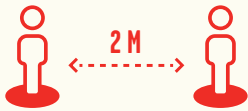

Because your safety and our employee's safety are important to us, the following standards and guidelines apply in all our chocolate shops

Please sanitize your hands before entering.

Our work spaces have been modified to meet distancing standards and all our equipment is regularly and thoroughly sanitized.

Thank you for respecting our one-way path and the 2 metre distance at all times! Use the arrows clearly marked on the floor to find your way around the shop and to the designated waiting areas.

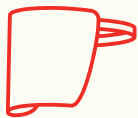

A maximum number of people inside at the same time has been set for each Chocolats Favoris and we advise that only one person per family enters.

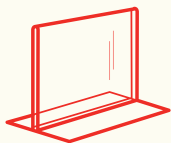

If you have symptoms of a cough or fever, we ask that you do not enter the shop. This also applies to all our employees.

Touch only the products you will buy.

Protective equipment has been provided to all our employees and they wash their hands regularly.

Acrylic panels have been installed near the checkout. We ask that you present your items to the clerk through the panel so that they can be scanned.

Accepted methods of payment are: debit, credit and gift cards.
